SKILLS

Languages: Python, C++, C, JavaScript, Java, SQL, Bash, HTML/CSS
Frameworks/Libraries: Django, Django REST Framework (DRF), React.js, Tailwind CSS, Leaflet, Axios
Tools/Platforms: Linux, Git/GitHub, PostgreSQL, MySQL, Firebase, Postman, REST APIs, Arduino
Soft Skills: Analytical Thinking, Adaptability, Collaborative , Problem-Solving

PROJECTS

SecureAuth System | *Python, Django, PostgreSQL* | *Github* Feb '26

- Architected a secure backend API using **Django REST Framework** and **PostgreSQL** to enforce robust Identity and Access Management (IAM) protocols.
- Engineered a resilient authentication flow, mitigating common vulnerabilities through secure session management and encrypted password handling.
- Implemented a real-time activity monitoring dashboard to track user sessions, log anomalies, and prevent unauthorized access.

ADHD Productivity Assistant | *React.js, Tailwind, Firebase, Gemini API* | *Github* Mar '25

- Developed an accessible, user-centric productivity platform for neurodivergent individuals using **React.js** and **Firebase**.
- Integrated the **Gemini API** via **Axios**, utilizing **Postman** for endpoint testing to ensure seamless, AI-driven daily task recommendations.
- Designed adaptive features including a dynamic task manager, location-aware routines using **Leaflet**, and visual mood analytics to reduce cognitive load.

Fire Alarm System with Arduino UNO | *Arduino Uno, C Programming* Dec '24

- Programmed an **Arduino Uno** micro-controller using **C** to process real-time environmental data for fire hazard detection.
- Engineered low-level hardware logic to trigger immediate, automated physical alerts, demonstrating a strong grasp of embedded systems.

TRAINING

C++ Summer Training | *CSE Pathshala* Jun '25 - Jul '25

- Implemented **Object-Oriented Programming (OOP)** and **Data Structures (DSA)** including Stacks, Queues, and Linked Lists in C++.
- Focused on optimizing code efficiency and algorithmic thinking through continuous practical exercises.

Python Summer Training | *Code Sprint* Feb '24 - Mar '24

- Hands-on implementation of core Python concepts, including automation scripts and complex data manipulation.
- Developed a strong foundation in backend logic and scripting for diverse software environments.

CERTIFICATES

Intro to Hardware and OS by IBM | Coursera Dec '25
Bits and Bytes of Computer Networking | Coursera Dec '24
Fundamentals of Network Comm. | Coursera Dec '24
Social Networks by IIT Madras | NPTEL Oct '24
CSS (Basic) Certificate | HackerRank Nov '23

ACHIEVEMENTS

Hackathon: Code of Duty | *Web Hackathon* Mar '24

- Ranked **13th** among **100+ Teams** by demonstrating rapid prototyping and efficient teamwork.

EDUCATION

Lovely Professional University, Punjab, India Aug '23 - Present
B.Tech - Computer Science and Engineering | **TGPA:.6.4**

D.A.V. School, Nagrota Surian Apr '22 - Mar '23
Intermediate (12th) - **68.6%**

D.A.V. School, Nagrota Surian Apr '20 - Mar '21
Matriculation (10th) - **66%**
